

March 28, 2019

I am pleased to announce that e.i.p. is now the exclusive representative for **Antec Controls by Price** in the state of Illinois and Northern Indiana.

Antec offers Healthcare and Laboratory solutions designed to deliver precision airflow and environment control for critical spaces. Their products have been developed and engineered to perform to the highest standards with a simplified approach to reduce system commissioning time. As the only manufacturer to offer multiple valve technologies you can be confident that we'll have the flexibility to recommend the best solution for each application at hand.

Antec Controls by Price provides the same level of quality, service and support our customers have come to expect from e.i.p. and the manufacturers we represent. Our in-house factory authorized technicians will assist contractors and end-users through every step of the process.

We look forward to a successful partnership and serving the healthcare/laboratory community with solutions that will offer optimal performance and control.

Kindest regards,

Christine Greco
